PROFESSIONAL SUMMARY

Ambitious and motivated BTech student in Electronics and Telecommunication with a strong foundation in Python programming and Machine Learning. Seeking opportunities to apply technical skills and contribute to innovative projects in software development and data science domains.

EDUCATION

Bachelor of Technology in Electronics and Telecommunication

AISSMS Institute of Information Technology | 2023–2027 (Ongoing)

Higher Secondary Certificate (HSC) Amrita Junior

College | 2021–2023

Secondary School Certificate (SSC)

Kamalnayan Bajaj High School | 2020–2021

TECHNICAL SKILLS

- **Programming Languages:** Python
 - **Core Competencies:** Machine Learning, Problem Solving
 - **Software & Tools:** Jupyter, Tableau, Rstudio, Vscode
-

SOFT SKILLS

- Communication
 - Teamwork and Collaboration
 - Decision Making
 - Problem Solving
 - Analytical Thinking
-

PROJECTS & EXPERIENCE

- Password generation using python
- Creating a personal bank account using python
- Advanced file organizer using python
- Python blogs website using Django(working)
- Smart traffic light system

CERTIFICATIONS & ACHIEVEMENTS

- Basic python course
- Deloitte job simulation of data analysis by forge

ADDITIONAL INFORMATION

- Languages: English, Marathi
 - Availability: [Full-time / Part-time / Internship as applicable]
-
